

President's Message: October 2025.

SFF President David Redd

Is the summer heat behind us? I certainly hope so.

The mornings and evenings have become very pleasant. That means it's time to get out and fish, no more excuses about the heat (I'm writing that to myself). It also means our snow bird members will be returning to join us at the meetings and outings. It will be great to have them back.

This month we will have the time honored Carl Hanson outing on the Hillsborough River. The Tampa club will be hosting this time. Lunch will be at Trout Creek Conservation Park, so bring your kayak and join us.

Next month we will be trying something different at the monthly meeting, we are going to have a "Fly Market". We will have tables set up for individuals to sell items they no longer use but would like to get something for them. The club will not charge a fee for the table space but certainly would be open to a donation of a portion of the proceeds if you feel inclined to do so.

The club would also ask that you consider perhaps donating any unsold items that you no longer use so they can be used for the Hog Roast or Trash n' Treasures. I look forward to seeing the display of items at the meeting.

We will also have pizza and drinks, so come hungry and enjoy the evening.

See you then.

David
